

## IODINE UDDER WASH

This product is an iodine-based udder wash and sanitizing concentrate.

ACTIVE INGREDIENTS: 2.0% w/v available Iodine

### DIRECTIONS:

For washing udders, use 7 ml per litre lukewarm water (1 oz./gallon). Use a clean udder towel for each cow. For cleaning teat cups, use 3 ml per litre lukewarm water (½ oz./gallon). Immerse teat cups for 30 seconds before milking each cow. At the recommended use solution, this product is not considered a dangerous good.

CAUTION: Never dilute with hot water.

For Commercial Use Only
