

K13 OSTRO DINE

This product is an iodine-based cleaner-sanitiser for bulk milk tanks, utensils and equipment on dairy farms, dairy plants and in food plants. It also prevents milk stone build-up.

ACTIVE INGREDIENTS: Available Iodine: 1.75% w/v Phosphoric acid: 11.25% w/w
DIRECTIONS:

Dairy utensils & equipment: Pre-flush with warm water. Wash with 25 ppm solution using warm water. Rinse with potable water. Prior to using equipment, sanitize with 12 ppm solution. Daily use of solution will prevent the formation of milk stone and hard water scale.

DILUTION TABLE:

12 ppm = 0.7 ml/L of water (1/2 oz./4gal)

25 ppm = 1.4 ml/L of water (1 oz./4 gal)

100 ppm = 5.7 ml/L of water (1 oz./gal)

For Commercial Use Only
